How did we get there?
Make friends :-) and keep friends :-) as a company, but also as a person

TIME

How do you get a friend? Believe in your strategy, check your strategy and adjust your strategy based on what you learn

Listen and understand others

Find out who also need a friend of your type?

To find international friends can be difficult

Do you have some unique or special that they need?

Make them friends to your network that is also valuable to them

Deliver value, be trustworthy

Can somebody be your reference to your value, company and employees

Be visible and scale

Permanent Networks that can help you

Nordic +, StartupLab, Nordic Edge, Traffic Data and other based on where you are located, and where you see it naturally to set up a local office internationally

Temporary Networks that can help you
Horizon Europe projects

and find partners and customers where you can deliver value and get value
