

NIS2 in practice

Supervision and readiness in
the Swedish transport sector

Cecilia Nilsson

Swedish Transport Agency

Implementation: from directive to operating framework

The Swedish implementation of NIS2 consists of three main regulatory levels:

- **Cybersecurity Act (2025:1506)**
- **Cybersecurity Ordinance (2025:1507)**
- **National implementing regulations**
 - Risk management*
 - Incident reporting*
 - Registration and identification*
 - Security audits & security scans*

Sectors and Supervisory Authorities

**National Cyber Security Centre (NCSC)
at FRA is the coordinating authority**

Swedish Transport Agency is supervisory authority for these sectors:

Transport

- Maritime
- Aviation
- Road
- Rail

Manufacturing

Manufacture of motor vehicles,
trailers and semi-trailers

Manufacture of other transport
equipment

ITS operators in scope in Sweden

The Swedish interpretation starts with the delegated acts under the ITS Directive.

Interoperable EU-wide
eCall services

Information on safe and
secure parking for
trucks and commercial
vehicles

Road safety-related
minimum universal
traffic information

EU-wide multimodal
travel information

EU-wide real-time
traffic information

Must also be:

- Established in Sweden
- Responsible for providing the regulated ITS Service
 - Size requirements

Current status of supervision

Registration supervision

- Identifying entities that are likely to be in scope but have not yet registered
- Significant gap between expected and registered entities

Cybersecurity risk-management measures – next step

- Detailed regulations in force since October 1st 2026
- First on site-supervision scheduled in November

Incident reporting

- Detailed reporting requirements in force since July 1st 2026

Security audits and security scans

- New supervisory tools under the Cybersecurity act
- Regulation in force since October 1st 2026
- Preparations for their use in supervision are ongoing

Four key obligations

Register the entity

**Implement risk-based
security measures**

Education & training

Incident management
